To whom it may concern

### **Letter of Support – SLT Ukraine master program**

I read the proposed Ukrainian SLT Master's program with great interest and was very impressed by its strong alignment with international standards. The curriculum appears comprehensive and well designed, covering the main areas of speech and language therapy. Although the structure could perhaps be made a little easier to follow, the overall content is solid and well thought out. It might be helpful to give a bit more visibility to the **preventive** aspects of the profession. The program's (para)medical orientation is clear and fully consistent with many comparable programs worldwide.

Wishing the program every success in its implementation and future development,

I am pleased to express my full support.

Prof. Marion Fossard, responsible for SLT Master, University of Neuchâtel  
(Switzerland)
